

THE GOOD YEARS!

HISTORICAL

TRAJECTORIES 1980–2010

MONDAY 29 JUNE 2015–FRIDAY 3 JULY 2015

MONTE VERITÀ, ASCONA, SWITZERLAND

Many historians and social scientists have tried to make sense of our most recent past, which is at once seen as the gloomy prehistory of subsequent disasters like the last financial crisis and in a nostalgic sense as a time of prosperity following the unruly 1970s. The conference brings together international scholars to dissect this “age of fracture” (Dan Rodgers) and invites young researchers to challenge these framings. Five thematic areas will be discussed: The breakthrough of the knowledge society; the heydays of economic liberalisation and financial capitalism; globalisation, the nation state and the new world order; life in the age of new media and big data, as well as the historiographic turns since the 1980s.

HOSTED BY:

David Gugerli

(Chair for the History of Technology,
ETH Zurich)

Jakob Tanner

(Department of History and Research Center for
Social and Economic History, University of Zurich)
